REQUEST FOR INFORMATION ON USE OF ICPSR RESOURCES

To provide funding agencies with essential information about use of archival resources and to facilitate the exchange of information about ICPSR participants' research activities, users of ICPSR data are requested to send to ICPSR bibliographic citations for each completed manuscript or thesis abstract. Please indicate in a cover letter which data were used.

DATA DISCLAIMER

The original collector of the data, ICPSR, and the relevant funding agency bear no responsibility for uses of this collection or for interpretations or inferences based upon such uses.

DATA COLLECTION DESCRIPTION

Julie DaVanzo and John Haaga

SECOND MALAYSIAN FAMILY LIFE SURVEY: 1988 INTERVIEWS
(ICPSR 9805)

SUMMARY: This collection, the second wave of a panel survey, provides household-level retrospective and current data for Peninsular Malaysian women and their husbands and covers traditional topics of demographic research such as fertility, nuptiality, migration, and mortality as well as social and economic factors affecting family decision-making. The overall purpose of the data collection was to study household behavior in diverse settings during a period of rapid demographic and socioeconomic change. Eight survey instruments were used in this study. The tracking instrument, MFLS-2, was used on all households where an interview was attempted, and recorded information such as disposition of survey and questionnaires, number of eligibles, and respondent identifiers. The MF20 instrument, Household Members, was administered to all Panel sample households that were located. It solicited information on the status of the household members and included items such as location, marital status, education, and birthdate. The MF21 form, Household Roster, was used on all households interviewed in the survey. This form collected demographic information on current and very recent household members. The MF22 form, Female Life History, surveyed the Panel women and their selected daughters and daughters-in-law, and the New Sample women. Information collected by this form included pregnancy history and related events; marital, work, and migration histories; family background; and education. The MF23 form, Male Life History, collected data from husbands of the Panel women, selected sons and sons-in-law, and husbands of New Sample women. Data on marital, work, and migration histories; education; and family background were recorded. The MF24 form, Senior Life History, was administered to selected persons aged 50 or more and contained questions on marriages, children living elsewhere, literacy, work experience, migration history, health, and family background. The MF25 form, Household Economy, collected data on household economy from all households interviewed in this wave. Forms MF26 and MF27 were used to generate community-level data subfiles for this collection. Part 97 (MF26DIST--District-Level Data) contains one record for each of the 78 districts of Peninsular Malaysia. This file provides information (most of which pertains to 1988, but some of which dates back to 1970) on health services (e.g., number of hospitals, health centers, and doctors); family planning services (e.g., number of family planning clinics, contraceptive use); birth, death, and fertility rates; number of

primary and secondary schools; ethnic distributions; and industrial and occupational distributions. Part 98 (MF26EB--Community-Level Data) contains one record for each of the 398 Enumeration Blocks selected for MFLS-2 and the 52 Primary Sampling Units used in MFLS-1. This file gives the current status of family planning services, general health services, schools, water and sanitation, housing costs, agriculture, transportation, population, urban/rural status, and government programs. Part 99 (MF27COMM--Community-Level Data) offers data for the same units as Part 98 and contains similar information, along with retrospective data on family planning services, health services, schools, and water treatment.

UNIVERSE: (1) All married women aged 50 or younger living in Peninsular Malaysia, (2) all children aged 18 or older living in Peninsular Malaysia, (3) all women under age 18 ever married and women between 18 and 49 living in Peninsular Malaysia, (4) all persons aged 50 and older living in Peninsular Malaysia.

SAMPLING: Four samples were drawn for this study: Panel, Children, New, and Senior. (1) Those eligible for the Panel Sample were 1,262 women who were the primary respondents in the First Malaysian Family Life Survey in 1976. At that time, all had been married and were aged 50 or younger. In the second wave, 889 of these Panel respondents completed the Female Life History Questionnaire, a follow-up rate of 72 percent of those eligible. The husbands of these respondents were also interviewed if living in the household. (2) The Children Sample consisted of children of the women eligible for the study aged 18 or older. There were interviews with one child, selected at random, living elsewhere in Peninsular Malaysia. (3) The New Sample consisted of women aged 18-49 (regardless of marital status) or ever-married women under age 18. (4) The Senior Sample consisted of 1,357 persons aged 50 or older.

NOTE: The codebook, data collection instruments, and other documentation are provided as Portable Document Format (PDF) files. The PDF file format was developed by Adobe Systems Incorporated and can be accessed using PDF reader software, such as the Adobe Acrobat Reader. Information on how to obtain a copy of the Acrobat Reader is provided through the ICPSR Website on the Internet.

8-14	7	EB	Enumeration Block Number
			9999999 = NA (record is a PSU)
			See Appendix D for codes

Cols	Length	Variable Name	Description and Codes
15-17	3	EBSECT	<p>EB Sector Identifier (Character data)</p> <p>000 = NA (EB has no subsectors) A00 B00 C00 999 = NA (record is a PSU)</p> <p>To be used with EB to identify a community See Appendix D for codes</p>
18-23	6	PSU	<p>Primary Sampling Unit Number</p> <p>999999 = NA (record is an EB)</p> <p>See Appendix D for codes</p>
24-26	3	TOWN	<p>Town in which EB/PSU is located</p> <p>998 = Don't Know 999 = Not Applicable</p> <p>TOWN refers to the name of the town in which this EB/PSU is located, if it is located within the boundary of an incorporated town.</p> <p>See Appendix F for town names</p>
27-29	3	KAMPUNG1	<p>Kampung or village in which EB/PSU is located.</p> <p>Towns are often subdivided into villages; thus some cases may have both TOWN and KAMPUNG names given.</p> <p>See Appendix G for kampung names</p>

Cols	Length	Variable Name	Description and Codes
30-32	3	KAMPUNG2	Second Kampung in which EB/PSU is located (if more than one) 998 = DK 999 = NA See Appendix G for kampung names EB/PSU boundaries may cross several villages. Additional villages within the EB/PSU are listed in KAMPUNG2 and KAMPUNG3.
33-35	3	KAMPUNG3	Third Kampung in which EB/PSU is located (if more than two) 998 = DK 999 = NA See Appendix G for kampung names
40	1	STRATUM	Community size indicator. 1=Metro (pop 75,000 +) 2=Urban Large (10,000-74,999) 3=Urban Small (1,000-9,999) 4=Rural (less than 1,000 pop) Coded according to population of the census district within which the EB/PSU lies, as reported in Census Dept. records.
37-38	2	INTRVWER	Preassigned interviewer number. Does not map into MF26 interviewer numbers.

Cols Length Variable Name Description and Codes

39-43	5	LPP_CLNC (Q. B1)	What was the nearest LPPKN Clinic to the EB/PSU providing family services? (Refer to Appendix K) 99998 = Don't know 99999 = NA (more than 30 km away) In MF26, clinics up to 100 miles away were considered.
NOTE: LPPKN = National Population and Family Development Board or "Lembaga Penduduk dan Pembangunan Keluarga Negara"			
LPPKN clinics tend to be located in urban areas. LPPKN records provided information on what clinic was in the area. Sources for data on clinic operations and services were clinic staff, usually the nurse.			

44-45	2	LPP_DIST (Q. B2)	How far was the LPPKN clinic from the EB/PSU? (in kilometers) 00 = in the EB/PSU 01-30 = 1 km to 30 km 98 = Don't know 99 = NA (more than 30 km)
-------	---	---------------------	--

46-47	2	LPP_STRT (Q. B2)	When did the LPPKN clinic start? 67-88 = Year 98 = Don't know 99 = Not applicable LPPKN was founded in 1966 with clinics generally beginning in 1967.
-------	---	---------------------	---

Cols Length Variable Name Description and Codes

48	1	LPP_PILL (Q. B6)	Did the LPPKN clinic offer the pill as a method of birth control? 1 = Yes 2 = No 8 = Don't know 9 = Not applicable
----	---	---------------------	--

49-50	2	LPP_PLYR (Q. B6)	Since when did the LPPKN clinic offer the pill, as a method of birth control? 98 = Don't know 99 = Not applicable In MF26, date when method was first offered was not asked.
-------	---	---------------------	---

51-54	4	LPP_PLPR (Q. B6a)	What was the price usually charged per cycle for the pill, at the LPPKN clinic? (in SEN--divide by 100 to get \$M) 0000 = Free 9998 = Don't know 9999 = Not applicable
-------	---	----------------------	--

55	1	LPP_COND (Q. B6)	Did the LPPKN clinic offer condoms as a method of birth control? 1 = Yes 2 = No 8 = Don't know 9 = Not applicable
----	---	---------------------	---

Cols	Length	Variable Name	Description and Codes
56-57	2	LPP_CMYR (Q. B6)	Since when did the LPPKN clinic offer condoms, as a method of birth control? 98 = Don't know 99 = Not applicable In MF26, date when method was first offered was not asked.

58-61	4	LPP_CMPR (Q. B6a)	What was the price usually charged per piece for condoms, at the LPPKN clinic? (in SEN--divide by 100 to get \$M) 0000 = Free 9998 = Don't know 9999 = Not applicable Values more than 1.50 \$M may represent price per packet and not per piece.
-------	---	----------------------	--

62	1	LPP_INJ (Q. B6)	Did the LPPKN clinic offer injections as a method of birth control? 1 = Yes 2 = No 8 = Don't know 9 = Not applicable
----	---	--------------------	--

63-64	2	LPP_IJYR (Q. B6)	Since when did the LPPKN clinic offer injections, as a method of birth control? 98 = Don't know 99 = Not applicable In MF26, date when method was first offered was not asked.
-------	---	---------------------	---

Cols Length Variable Name Description and Codes

65-68	4	LPP_IJPR (Q. B6a)	What was the price usually charged for injections for birth control at the LPPKN clinic? (Coded to nearest RINGGIT--SM) 0000 = Free 9998 = Don't know 9999 = Not applicable Price per injection received every three months
-------	---	----------------------	---

69	1	LPP_IUD (Q. B6)	Did the LPPKN clinic offer IUDs as a method of birth control? 1 = Yes 2 = No 8 = Don't know 9 = Not applicable
----	---	--------------------	--

70-71	2	LPP_IDYR (Q. B6)	Since when did the LPPKN clinic offer IUDs, as a method of birth control? 98 = Don't know 99 = Not applicable In MF26, date when method was first offered was not asked.
-------	---	---------------------	---

72-75	4	LPP_IDPR (Q. B6a)	What was the price usually charged for IUDs for birth control at the LPPKN clinic? (Coded to nearest RINGGIT--SM) 0000 = Free 9998 = Don't know 9999 = Not applicable
-------	---	----------------------	--

Four districts had no MFLS-2 respondents: 15,27,37,44
Many variable values will be missing for these cases.

* denotes new districts created after MFLS-1 was fielded.
Data prior to 1980 maybe coded as unknown or as the value
related to the 1976 district from which the later
district was created.

See Appendix B for more details about redistricting
after 1976.
